

VFR Route Description

- The controlling authority for the Western Islands CTR is Delma ATC on frequency 130.700MHz.
- VFR traffic routing between OMAM, OMBY and OMDL will be as directed by ATC.
- VFR traffic requesting to transit the Western Islands CTR will be subject to approval and as directed by OMDL ATC.
- VFR traffic requesting to enter the Western Islands CTR shall contact OMDL ATC no later than 5 minutes from the CTR boundary for joining clearance.
- VFR traffic instructed to hold outside or circumnavigate the Western Islands CTR, shall remain clear of the CTR boundary.
- Caution: VFR traffic may expect other VFR traffic crossing the CTR at the same level.
