This time limit may be reduced, subject to the consent of the said authorities.
4. The designated airlines are required to file a proposed tariff for carriage between the territories of the Contracting Parties with the aeronautical authorities for whose territory the tariff is to be applied in such a form as those aeronautical authorities may require. 6. The designated airlines have the right to match the approved tariffs of any airline between the same points on routes between the territories of the Contracting Parties. A matching tariff in accordance with this paragraph shall be filed for information purposes with the aeronautical authorities from whose territory the tariff is to be applied not later than its date of effectiveness.
7. The aeronautical authorities into whose territory a tariff is to be applied may - for information purposes only - require filing of proposed tariffs in such a way as those aeronautical authorities may require.

Article 14
Aviation Safety

1. Each Contracting Party may request consultations at any time concerning safety standards in any area relating to aircrew, aircraft or their operation adopted by the other Contracting Party. Such consultations shall take place within thirty (30) days of that request.
2. If, following such consultations, one Contracting Party finds that the other Contracting Party does not effectively maintain and administer safety standards in any such area that are at least equal to the minimum standards established at that time pursuant to the Convention, the first Contracting Party shall notify the other Contracting Party of those findings and the steps considered necessary to conform with those minimum standards, and that other Contracting Party shall take appropriate corrective action. Failure by the other Contracting Party to take appropriate action within fifteen (15) days or such longer period as may be agreed, shall be grounds for the application of Article 4 of this Agreement.
3. Notwithstanding the obligations mentioned in Article 33 of the Convention, it is agreed that any aircraft operated by the airline or airlines of one Contracting Party on services to or from the territory of another Party, may, while within the territory of the other Contracting Party, be made the subject of an examination by the authorized representatives of the other Contracting Party, on board and around the aircraft to check both the validity of the aircraft documents and those of its crew and the apparent condition of the aircraft and its equipment (in this Article called "ramp inspection"), provided this does not lead to unreasonable delay.
4. If any such ramp inspection or series of ramp inspections gives rise to:
 - a) serious concerns that an aircraft or the operation of an aircraft does not comply with the minimum standards established at that time pursuant to the Convention, or

PC

- b) serious concerns that there is a lack of effective maintenance and administration of safety standards established at that time pursuant to the Convention,

the Contracting Party carrying out the inspection shall, for the purposes of Article 33 of the Convention, be free to conclude that the requirements under which the certificate or licenses in respect of that aircraft or in respect of the crew of that aircraft had been issued or rendered valid, or that the requirements under which that aircraft is operated, are not equal to or above the minimum standards established pursuant to the Convention.

5. In the event that access for the purpose of undertaking a ramp inspection of an aircraft operated by the airline or airlines of one Contracting Party in accordance with paragraph 3 above is denied by the representative of that airline or airlines, the other Contracting Party shall be free to infer that serious concerns of the type referred to in paragraph 4 above arise and draw the conclusions referred in that paragraph.
6. Each Contracting Party reserves the right to suspend or vary the operating authorization of an airline or airlines of the other Contracting Party immediately in the event the first Contracting Party concludes, whether as a result of a ramp inspection, consultation or otherwise, that immediate action is essential to the safety of an airline operation.
7. Any action by one Contracting Party in accordance with paragraphs 2 or 6 above shall be discontinued once the basis for the taking of that action ceases to exist.

1. Each Contracting Party reaffirms that its obligation to the other Contracting Party to protect the security of civil aviation against unlawful interference forms an integral part of this Agreement. Each Contracting Party shall in particular act in conformity with the aviation security provisions of the Convention on Offences and Certain Other Acts Committed on Board Aircraft, signed at Tokyo on 14 September 1963, the Convention for the Suppression of Unlawful Seizure of Aircraft, signed at the Hague on 16 December 1970, the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation, signed at Montreal on 23 September 1971, and Protocol for the Suppression of Unlawful Acts of Violence at Airports Serving International Civil Aviation, Supplementary to the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation, done at Montreal on 23 September 1971, signed at Montreal on 24 February 1988, and any other multilateral agreement governing civil aviation security binding upon both Contracting Parties.

3. The Contracting Parties shall, in their mutual relations, act in conformity with the applicable aviation security provisions established by the International Civil Aviation Organization and designated as Annexes to the Convention. Each Contracting Party shall require that operators of aircraft of its registry or operators of aircraft having their principal place of business or permanent residence in its territory and the operators of airports in its territory act in conformity with such aviation security provisions.

PC

4. Each Contracting Party agrees that operators of aircraft may be required to observe the aviation security provisions referred to in paragraph 3 of this Article required by the other Contracting Party for entry into, departure from, or while within the territory of that other Contracting Party. Each Contracting Party shall ensure that adequate measures are effectively applied within its territory to protect the aircraft and to inspect passengers, crew, carry-on items, baggage, cargo, mail and aircraft stores prior to and during boarding or loading. Each Contracting Party shall also give sympathetic consideration to any request from the other Contracting Party for reasonable special security measures to meet a particular threat.
5. If an incident or threat of an incident of unlawful seizure of civil aircraft or other unlawful acts against the safety of such aircraft, their passengers and crew, airport or air navigation facilities occurs, each Contracting Party shall assist the other Contracting Party by facilitating communications and other appropriate measures intended to terminate rapidly and safely such incident or threat thereof.

Article 16 Consultations

Either Contracting Party may at any time request consultations on the implementation, interpretation or amendment to this Agreement or compliance with the Agreement. Such consultations, which may be between aeronautical authorities, shall begin within a period of sixty (60) days from the date the other Contracting Party receives a written request, unless otherwise agreed by the Contracting Parties.

PC

2. If the Contracting Parties fail to reach a settlement of the dispute by negotiation, they may agree to refer the dispute for decision to an arbitrator, or the dispute may at the request of either Contracting Party be submitted for decision to a tribunal of three arbitrators, one to be nominated by each Contracting Party and the third to be appointed by the two so nominated. Each of the Contracting Parties shall nominate an arbitrator within a period of sixty (60) days from the date of receipt by either Contracting Party from the other of a notice through diplomatic channels requesting arbitration of the dispute and the third arbitrator shall be appointed within a further period of sixty (60) days. If either of the Contracting Parties fails to nominate an arbitrator within the period specified, or if the third arbitrator is not appointed within the period specified, the President of the Council of the International Civil Aviation Organization may be requested by either Contracting Party to appoint an arbitrator or arbitrators as the case requires. In all cases, the third arbitrator shall be a national of a third State, shall act as president of the

tribunal and shall determine the place where the arbitration will be held. If the President considers that he is a national of a State which cannot be regarded as neutral in relation to the dispute, the most Senior Vice-President who is not disqualified on that ground shall make the appointment. The arbitral tribunal shall reach its decision by a majority of votes.

3. Each Contracting Party shall bear the costs of the arbitrator it has nominated as well as of its representation in the arbitral proceeding. The costs of the president and any other costs shall be born in equal parts by the Contracting Parties.
4. The Contracting Parties undertake to comply with any decision given under paragraph 2 of this Article.
5. If and as long as either Contracting Party fails to comply with any decision under paragraph 2 of this Article, the other Contracting Party may limit, withhold or revoke any rights or privileges which it has granted by virtue of this Agreement to the Contracting Party in default or to a designated airline in default.

Article 19

Registration
