**Date** : 08 August 2001  
**Subject** : **Application for MEL/AMS/CMS Approval**  
**CC** :

---

Dear Sir,

As of the date of this Circular all applications made for approval of initial issue or renewal of MEL, AMS and/or CMS of an aircraft or its components, must be submitted to the GCAA along with the following:

a) **For Initial Issue:**

Current original documents issued by the manufacturer.

b) **For Revisions:**

Manufacturer's related original documents pertaining to the revision or the master document (if applicable).

In both cases, the application must be accompanied with a statement signed by the Quality Assurance Manager or his delegate, confirming that the submitted draft meets the GCAA requirements and it does not deviate from the current master document including all temporary revisions issued up to the date of issue of the proposed draft.

Any deviation from the above requirements, must be clearly defined by the operator, and furthermore approved by the GCAA case-by-case basis.

Yours faithfully,

**AHMED AL HADDABI**
