

Information Bulletin Number 15/2002

To	:	All DCA's and UAE Operators
From	:	Director Flight Safety
Ref.	:	20212 / 3522 / 02
Date	:	16 th November 2002
Subject	:	Carriage of Baggage

There have been increasing reports of baggage, suitcases, large holdalls and even boxes being carried in the passenger compartment rather than being carried as checked baggage in the aircraft hold. These actions prejudice both the safety and security of aircraft.

All baggage, cargo and mail must be carried in the cargo hold of a passenger aircraft; only hand baggage as specified in number and size by the Operator may be carried in the passenger compartment of an aircraft.

Yours faithfully,

AHMED AL HADDABI
Director Flight Safety
