Dear All,

The GCAA is pleased and appreciates all the Committee Members who had participated for the First Committee Members meeting which started from 29th January 2009 and this was very productive. These members had reviewed and updated us on the current and future regulations.

Further more, we would like to continue the relationship with the GCAA external stakeholders and strategic partners, and hence we will be forming an Advisory Committee to advice on the development and services to be provided. You are requested to nominate your staff, to act as a member of this Committee for Air Crew, LAME and Aeromedical.

These Committee Members may share their opinion on all matters related to Licensing that is in line with the ICAO standard and JAR practice in order to have the best aviation practice.

Best Regards,

SAIF MOHAMMED AL SUWAIDI
DIRECTOR GENERAL
