1. BACKGROUND

Since May 2007, the National Emergency Crisis and Disaster Management Authority (NCEMA) is the major national standard-setting body responsible for regulating and coordinating all efforts of emergency and crisis management as well as the development of a national plan for responding to emergencies.

2. PURPOSE

The purpose of this Information Bulletin is to request nomination of focal points from the industry to provide information on Ad-hoc basis to ensure smooth integration of the UAE civil aviation system within NCEMA.

3. COMMUNICATION CHANNEL

For the NCEMA to reach its objectives, the GCAA would like to establish permanent communication channels with the UAE civil aviation system stakeholders. Therefore, your organisation is required to appoint permanent focal points who will be responsible for providing information as and when required by the GCAA for the benefit of the NCEMA.

This list of personnel should be provided to the GCAA with their contact information (landline number, mobile and email) and designation within 30 days. The list is to be provided by email to: ps@gcaa.gov.ae.
