

INFORMATION BULLETIN No. 09/2013

SUBJECT	:	ADDITIONAL TRAINING REQUIREMENT FOR SAFETY RELATED POST HOLDERS
ORIGINATOR	:	AVIATION SAFETY AFFAIRS SECTOR
ADDRESSED TO	:	UAE ORGANISATIONS
DATE	:	20 OCTOBER 2013

1. BACKGROUND

Post-Holders are key personnel within an organisation who are accountable for maintaining safety standards required by regulation and additional standards specified by the Certificate/License. They must have the necessary qualifications, experience and corporate authority for ensuring that all operations and systematic activities are carried out to the standard required.

2. PURPOSE

The purpose of this Information Bulletin is to inform organisations of the **intention** of the GCAA to mandate additional training for safety-related Post-Holders (PHs).

Note: The requirement will be communicated using appropriate regulatory publications.

3. PROPOSED REQUIREMENT

Prior to a candidate being authorized to assume the position of PH, he will be required to submit evidence that he has completed a PH Training course related to the post. Because this requirement aims at encouraging and enhancing positive attitudes towards regulatory compliance and safety management, the GCAA may, at a later stage, require that existing PHs undergo such trainings subject to periodical evaluation of their performance.

Note: The GCAA will notify UAE organisations when such PH Training is made available.

4. TRAINING COURSES

Training organisations interested in providing such trainings are to contact ps@gcaa.gov.ae.
