BACKGROUND

The UAE GCAA, in collaboration with CGE Risk Management Solutions is organising a Bowtie course in Dubai.

PURPOSE

To announce the availability of Bowtie course on 29-30 September 2015 for the industry. The course will be conducted by CGE Risk Management Solutions at the Intercontinental Dubai Festival City Hotel.

REGISTRATION

Interested delegates are to refer to the attached brochure for information on course registration.

BowTie in Aviation Training

Visual Risk Assessment

29 - 30 September 2015

BowTie methodology is fast becoming the 'best practice' benchmark for risk assessment in the aviation industry. In close corporation with the UAE GCAA we are offering a 2-day course for the use of BowTie in Aviation. This course provides participants with an in-depth understanding of the fundamental methodology and how best to apply it within the context of aviation Safety Management Systems, as well as hands-on experience with the leading barrier based software tool BowTieXP.

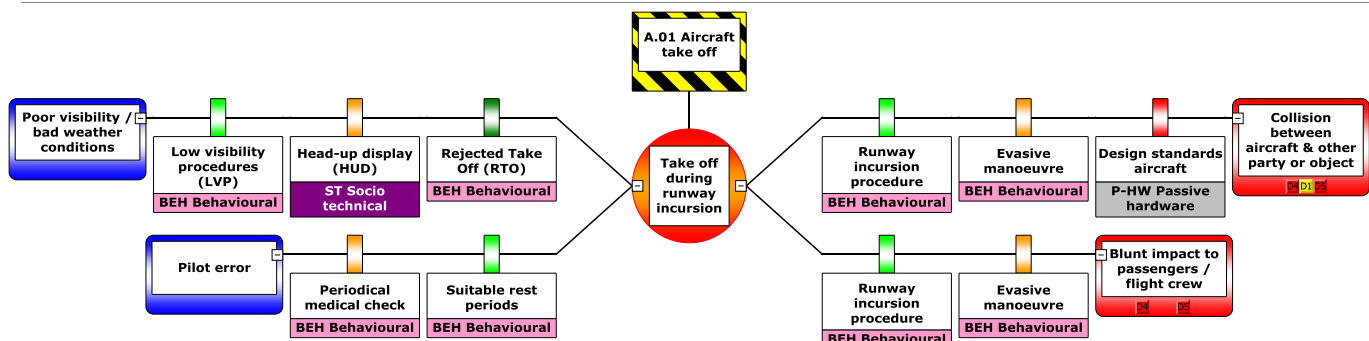

Tuesday September 29

Introduction to operational risk management concepts

The BowTie method in Risk Management

BowTie elements - Hazard, Top Event, Consequence, Threats, Controls (Barriers), Escalation Factors

Interactive Bowtie workshop exploring the application to a real life hazard (part 1)

Wednesday September 30

Facilitating a team to build a Bowtie model

Step-by-step Bowtie construction: building a Bowtie diagram in the BowTieXP software

Interactive Bowtie workshop exploring the application to a real life hazard (part 2)

Risk matrices and Actions

BowTie data analysis - linking the occurrence reports, investigations, audits

Exploring the possibilities of AuditXP and IncidentXP

The management system context—risk based safety performance indicators

To register for the training, please fill out the registration form on the last page of this brochure.
