

INFORMATION BULLETIN 2017-07

Issue 01

Date of Issue: 15th March 2017

SUBJECT:

MEDICAL CERTIFICATE APPLICATION DASHBOARD

REFERENCE PUBLICATIONS:

CAR-MED

REASON:

The GCAA endeavors to resolve all inquiries from the UAE Industry to facilitate their day-to-day operations.

The GCAA agrees that a visualisation of all pending applications for initial or renewal of Medical Certificate through a link will enhance many other processes and activities within the concerned organisations.

The link will allow the operators to monitor where and at what stage their submitted application i.e. whether it is with the applicant, clinic or GCAA, under process, approved or returned back for more information, etc.

This Information Bulletin (IB) is issued to provide more information on how to check status of GCAA Medical Certificate Applications.

INFORMATION TOPIC:

Organisations employing staff (e.g. AOC/POC holders, ATS Units) required to hold a valid and current Medical Certificate as per CAR-MED may access the status of each application using the following link:

[GCAA Medical Certificate Application Status.](#)

Organisations will visualise on a dashboard all applications related to the persons under their own responsibility, hence this will help them to instantly obtain updates on applications. Based on status of applications, organisations can follow up with the GCAA or the Clinics on medical certificates applications not yet completed.

Your organisation is required to nominate a focal person and provide the GCAA with his/her details: name of the person, title, company email, and phone number.

This access does not undermine any medical confidentiality provision.
